Dear John:

I want to thank you very much for your support in our GSA litigation effort. We appreciate your ability to quickly model the client's data landscape, and provide insightful data investigation, discovery, and statistical analysis. Because of your incredible turnaround we were able to build a solid, data-based defense very quickly.

I recommend you highly to anyone concerned without reservation and I would definitely work with you again. Your level of professionalism is an asset to any legal case that involves data discovery and analysis and I would kindly forward your information to others without hesitation.

Best Regards,

Michael F. Mason
